

Elf Apron Template

Paper Directions: Print out templates & cut out. Glue on pocket in center top (like below). Cut 4 pieces of string/yarn. There should be enough string/yarn on each side to tie together behind the elf. Can always trim length later if too long. Place a glue dot where the x's are and then attach the string on top.

Felt Directions: Print out template & cut out. Place on top of felt and trace around it. Cut out. Cut 4 pieces of string/yarn. There should be enough string on each side to tie together behind the elf. Place a small hot glue dot where the x's are and then attach the string on top.

Optional: Cut 4 little felt squares and then placed on top of yarn to secure (string between 2 felt pieces then). Lastly, you can outline the apron in string/yarn by placing hot glue on edges and then quickly place string/yarn on top.
